West

Founded by a mother and daughter with a passion for serving others, The Lingo Project exists to help churches build stronger communities through language education, guided by faith. We provide ready-to-use English and Spanish language programs that empower adults to communicate with confidence while creating opportunities to share the hope of the Gospel.

Curriculum

English & Spanish Curriculum

English Curriculum

Spanish Curriculum

We provide English curriculum designed to equip immigrants and refugees with practical language skills for everyday life, work, and community.

We offer Spanish curriculum for volunteers and mission teams who want to connect with Spanish-speaking neighbors and serve more effectively.

All materials, curriculum, lessons, presentations, videos, documents, and content presented by The Lingo Project are legally protected intellectual property and proprietary materials. These materials may not be copied, shared, distributed, reproduced, recorded, published, or sold without prior written authorization from The Lingo Project.

What We Offer

The Lingo Project provides the curriculum and platform you need to launch a high-quality, Gospel-centered language program. Our complete, ready-to-use curriculum is available through our online platform, giving your team instant access to lesson plans, teaching materials, and student resources. Your volunteer teachers can focus on teaching and building relationships –not creating lesson plans.

Program Overview

Our classes are designed for adults who want to learn a new language.

Each level includes 32 classes, providing a structured learning experience that helps students build confidence and develop their language skills.

We offer two English levels: Basic & Intermediate.

We currently offer one Spanish beginner-level course.

Digital Teaching Materials: All teacher presentation slides are provided in a digital format, making it easy to prepare and teach each lesson.

Recommended Schedule: We recommend offering two classes per week to help students make consistent progress.

Class Times: Classes may be offered during the day or in the evening, depending on your organization's needs. However, based on our student surveys and experience, evening classes tend to attract more adult learners.

Sustainable Program Growth Potential

Partnership Responsibilities:

- A meeting location for classes
- A Site Coordinator
- Volunteer teachers and helpers

The Lingo Project charges host sites \$20 per enrolled student for access to our curriculum, platform, and ongoing support. Your church or ministry sets the tuition for students.

We suggest charging \$50 per student because is an affordable fee for a high-quality language program.

Your organization would retain \$30 per student to help cover local program expenses, such as hiring a Site Coordinator, purchasing supplies, or expanding your ministry.

What We Manage

The Lingo Project equips volunteer teachers and Site Coordinators with the training, tools, and ongoing support they need to confidently serve their community. Our comprehensive training is included at no additional cost, ensuring every team is prepared to lead a welcoming, high-quality language program that makes a lasting impact.
